The Cocoa Campus is home to the collegewide District Administration. Located on this campus are three technologically advanced facilities: the Astronaut Memorial Planetarium, the BCC/UCF Joint Use Library, and the Florida Solar Energy Center. Together, these facilities comprise the main components for the Florida Circle of Science and Technology. Also located on the campus is the Clark Maxwell, Jr. Lifelong Learning Center, a cooperative effort of BCC and University of Central Florida. This unique instructional facility houses programs for both BCC and UCF, enabling students to complete a bachelor’s and master’s degree without leaving the county.
