1-inch margins
Do not include a page number on the title page! However, don’t forget that you should begin using page numbers on the next page of the essay, formatting them “LastName 2” and so forth.

All content on the title page is centered, double-spaced, and 12-point Times New Roman font.

About 2-3 inches down the page, include the title. If you have a subtitle, add a colon and include the subtitle on the next line.

About 5-6 inches down the page, include your name.

The last three lines at the bottom of the page should include the course name, the instructor’s name, and the due date of the paper. Each piece of information should appear on its own line.

REMEMBER: If you are using a title page, the next page of your paper will NOT repeat the title.
